

Target 5: Use of wild species

Elements that should be part of the target

➤ Non-detrimental

Well defined CITES Language. This wording also prevents countries from legalising destructive practices.

➤ In situ

Reference to CSU (in addition to legal as per legal and customary use) -otherwise many IPLC practices risk to be excluded as in many national legislations they are considered illegal

Ensure that all trade and use of wild species allow them to regenerate sustainably, is safe for health of people and ecosystems and respects rights of customary sustainable use

➤ Avoid **or significantly** reduce human-wildlife conflicts

Stronger wording, more ambition
